Attachments: OAR Response No.2 to OIG - EtO and Chloroprene July 6 2021.docx

Thanks! Here is a clean version. Let's discuss at 1:30 pm.

Here's the text for the missing footnote. Looks like I can't edit the shared file b/c you're in the same section of the doc now.

^{1]} ATEST tracks changes in health effects information, primarily in the form of new and revised dose-response values for hazardous air pollutants (HAP), including values issued by EPA's Integrated Risk Information System (IRIS), the Agency for Toxic Substances (ATSDR), California EPA, and EPA OCSPP's Toxic Substance and Control Act (TSCA) program.

Hi, Hillary. There is a footnote "1" in the text on page 2, but nothing at the bottom of the page. Should I delete the footnote in the text?

Yes. I think it's ready to go. Adding in Walter as special asst. I'd suggest pulling down the file and sending an external copy (attached in RLSO). I think Brian owns the file and I'm not sure about the permissions if the shared version goes through OAR.

Got it. Thanks, Paul.

Hillary – let me know if you think this is ready to send up to OAR.

I read the HON section and thought it was OK because it did not suggest we would conduct a TR, check risk, and then redo the TR. Please let me know if anyone disagrees.

Thank you, Paul. Do you also want to make similar edits to the HON section?

Mike

I am done with the substantive edits to the Comm. Ster. section that I just discussed with Mike.

Hhmmm. Not sure it was sent to OAR. I just talked with Joe at 10:00 am and he had not seen anything.

Also, I just talked with Paul and he is going to make a few additional edits.

Hi Mike,

Brian and I talked a few times last Thursday. We looped in Grant and let him know that we were sending the draft through the special assistants for Joe's review. Brian sent the draft to Stephen for transmittal to OAR.

At this point, I think we just need to know if Joe's ok with the draft he reviewed. It can then go to OIG for final review.

I think Marguerite's filling in for Brian while he's on leave. Marguerite, did I miss anything?

Marguerite, Hillary: This looks fine to me. I see that Brian is out, so let me know about next steps for getting this out. I'll give Joe a heads up on today's 1-on-1.

Mike

Shrager, Brian shared a file with you

Here is the final draft letter on the RTR/EtO-Chloroprene OIG inquiry. It is due on Tuesday, July 6 and needs review by Joe Goffman.

Thanks!

Brian
